Subject RE: North Station access issues

Ross,

My hope is that we can do field work this spring. We have executed access for LaSalle Chestnut (Dikman) and Division Halsted. We're still negotiating with ComEd and the Old Town Condos but so far things seem positive. The last parcel is City of Chicago where we're not expecting any issues. So in general, things are moving fairly well, just working out the details with ComEd and Old Town.

Can you tell me about your discussion with Dikman?

Thanks,
Naren

Subject: North Station access issues

Hi, Naren. I noticed in your December progress report for North Station that you are still negotiating access for the upland areas. No specifics were given in the report, however. Will Integrys be in a position to do field work this coming spring? We've had contact with Dikman recently, but wonder if there are issues with other property owners which could impede your efforts to get started on field work.

Ross
